PURPOSE

The mission of the United States Fire Administration (USFA) is, in part, to increase the efficiency and effectiveness of the management of the nation's fire service, as well as Emergency Medical Services (EMS). As part of an ongoing effort to satisfy this mission requirement, USFA recognized a need for the development and dissemination of a comprehensive directory that lists and describes the various EMS management resources currently available in the United States.

This Emergency Medical Services Management Resource Directory is intended to provide information to EMS managers and represents a collection of information pertinent to the management of EMS. The directory focuses on identifying pertinent organizations and associations, computer data bases, and current reference materials. Included is a listing of contacts intended to expand the network of information regarding EMS, as well as colleges and universities that offer certification and degree programs in the field of EMS. This directory was designed as a quick reference document to guide the practitioner or scholar in identifying or researching EMS resources.

The USFA does not necessarily endorse the documents or organizations listed in this Emergency Medical Services Management Resource Directory, but rather provides them as reference material in a single document. Much of this information is also available in other documents produced by the USFA, other Federal agencies and/or the organizations listed in this directory.

HOW TO USE THIS DIRECTORY

This directory is divided into three parts. Part I contains listings of EMS reference materials such as books, journals, audiovisuals, EMS clearinghouses and other computer data bases. Part II contains EMS-related organizations and associations, State EMS Directors, and State EMS Training Coordinators and Liaisons. Part III contains a listing of colleges and universities that offer EMS certification and degree programs. All information in this directory is current as of the date of publication, but is subject to change.

The index for this directory may be used as follows:

- Reports, books and manuals listed by author in the text are listed by title in the index.
- Colleges and universities listed by state in the text are listed alphabetically by name in the index.
- A listing of states, which includes colleges and universities, State EMS Directors, and State EMS Training Coordinators for each respective state, is included in the index.

INTRODUCTION

EMS MANAGEMENT RESOURCE DIRECTORY

INTRODUCTION

An Emergency Medical Services (EMS) system is defined as: "a comprehensive, coordinated arrangement of health and safety resources that serves to provide timely and effective care to victims of sudden illness and injury." As an integral part of the total emergency medical services system, Pre-hospital EMS management has had a major impact on the effectiveness, efficiency, safety and quality of the total system.

As a result of our society and technology, there are issues that heavily impact EMS. The current and increasing health care crisis, drug abuse and related violence, communicable diseases, and the aging population are just a few of the topics putting pressure on United States EMS systems. With the best interest of the public at hand, the Federal Government has undertaken some initiatives that may further enhance EMS system delivery and provide for improvements to the overall EMS system. One of these initiatives is the development of this EMS Management Resource Directory.

The History of EMS

In many ways, the growth of the Nation's EMS is the result of public demand. Prehospital care did not surface as a national concern until the 1960s. Prior to that, the victim of a medical emergency did not receive much medical assistance, other than transportation to the hospital. Often staffed only by a driver, ambulance services at that time offered little in the way of lifesaving care. Hospitals also were not set up to treat life-threatening emergencies. Emergency rooms did not have trained

medical staff or equipment available on a round-the-clock basis to treat serious illnesses or injuries.

The first recorded ambulances date back to the Crusades, and the first actual prehospital care was created during the Napoleonic Wars in 1792, when the first care and the first air evacuation -- by hot air balloon -- occurred. Many of the concepts of modern EMS were introduced by military medicine in Korea and Vietnam. The lifesaving benefits of rapid field evacuation and paramedics, and medical advances in stabilization and resuscitation, were proven as a result of the medical care provided to our troops.

In 1966, however, the National Research Council published a report that concluded that more than 50,000 Americans died as a result of traffic accidents. This report established EMS as a national priority. The U.S. Department of Transportation began the development of a national standard curricula for Emergency Medical Technicians, which became the nucleus for forming EMS systems nationwide.

In 1973, the Emergency Medical Services Systems (EMSS) Act designated Federal dollars for the development of regional EMS systems. Specific requirements outlined by this Act -- training and certification, interagency cooperation, equipment development, communications, and public education -- are recognized today as the key elements of effective EMS.

As a result of the development of accepted standards and guidelines, much like those that characterize other professions, citizens throughout the country now benefit from the expertise of EMS providers that have been trained and certified in providing lifesaving care.

Individuals who are involved in EMS -- whether career or volunteer -- commit to anywhere from 40 to 1,000 hours of training initially,

and years of continuing education, as part of their professional commitment as providers of quality patient care.

A highly skilled force of EMS providers is just one of the results of the standards and guidelines developed as a result of the EMSS Act. Similar guidelines contribute to advances in equipment, communication, and administration.

The medical community recognized that the ability to provide immediate lifesaving care required the full-time availability of physicians and nurses with specialized skills and knowledge, as well as fully equipped emergency facilities. Emergency medicine, the specialty of evaluating, stabilizing and initiating treatment for life and limb threatening conditions, was established in 1968 and became a medical specialty in 1979.

Emergency rooms themselves have evolved into emergency departments that are fully-staffed and equipped 24 hours a day, seven days a week. Trauma centers are staffed and equipped to provide immediate care -- including surgery -- to the most seriously injured or ill patients, also on a round-the-clock basis.

Pre-Hospital EMS Today

Fire departments provided a ready model for the development of regional EMS systems. Fire departments offered an example of localized training and certification programs. And, fire departments are set up -- using communications technology and strategically located fire stations -- to be able to reach anywhere in the community within minutes.

As a result the resources that were already available, many communities housed responsibility for EMS within the fire department. Today, 60-80% of the 34,000 fire departments in the United States provide EMS to the citizens they serve.

EMS can be provided in a number of ways and by organizations other than the fire department. In many communities, the fire department responds to medical emergencies in a fire engine as "first responders" -- at either the basic life support (BLS) or advanced life support (ALS) level. Further care and transportation to a medical facility is provided by a private, for-profit ambulance company, separate municipal-based EMS department, or hospital-based systems are the sole providers of EMS. The EMS personnel may be career or volunteer emergency responders, and may respond in BLS ambulances, mobile intensive care units, ALS ambulances, or aeromedical ambulances.

Approximately 60% of the more than 750,000 emergency medical providers in the United States are volunteers. Unlike disciplines that only use volunteers to support the career workforce, volunteer EMS providers have exactly the same training and responsibilities of their career counterparts. Many communities are served exclusively by a volunteer EMS service.

The role of volunteers in EMS reflects a history of volunteerism in safety and rescue: examples include the fire service and the Red Cross.

The Government's Role in EMS

The Highway Safety Act of 1966 led to the formation of the U.S. Department of Transportation's National Highway Traffic Safety Administration (NHTSA), which helped many states and localities start their own coordinated EMS programs. Over the years, NHTSA has provided funding and technical assistance to help improve EMS system development in the areas of planning, training, and personnel, communications, resource management, trauma system development, transportation, and public information and education.

In 1973, the Emergency Medical Services Act called for the Federal Government to spend millions of dollars in the development of regional EMS systems through a Department of Health and Human Services (DHHS) categorical grant program. The programs focused on creating systems, purchasing equipment, and training staff. In the mid-1980's, much of the funding for Federal EMS programs was reduced or eliminated. As a result, EMS systems became more dependent on state and local funding. Many of the differences in levels of service that persist today -- the lack of universal 9-1-1 service, for example -- can be traced to the decline in Federal funding.

Since its creation in 1974, the USFA recognized and acknowledged its responsibility to assist the fire service in its lifesaving role. As a part of the Federal Emergency Management Agency (FEMA), USFA took a leadership role in EMS management research and information dissemination, because EMS is such an important part of the fire service.

Currently, Federal leadership in EMS is provided through NHTSA and USFA. As a result of the Trauma Care Systems Planning and Development Act of 1990, the Department of Health and Human Services is again becoming a partner in EMS.

The USFA has become a keystone for all of the organizations and Federal agencies dealing with EMS management issues faced by the emergency services today. In 1991, the role USFA in EMS was reaffirmed with the following Mission Statement:

USFA Emergency Medical Services Program

The Nation's fire service is recognized as first responders to medical and other emergencies. The vast majority of fire departments in this country provide some level of emergency medical service, and the majority of

the emergency activity within these departments is medical-related. Thus, a critical part of fire service management is the management of pre-hospital emergency medical services.

The mission of the United States Fire Administration (USFA) is, in part, to increase the efficiency and effectiveness of fire service management across the country. The purpose of the Emergency Medical Services Program of the USFA is to address a major component of this issue -- the management of emergency medical services. USFA will conduct research, produce publications, disseminate information, and cooperate with other agencies and organizations in an ongoing effort to increase the efficiency and effectiveness of the management of pre-hospital emergency medical services.

The Purpose of this Directory

The USFA's constituency includes over 34,000 fire departments and 17,000 EMS departments across the country. These departments are comprised of nearly 2 million emergency workers. The diversity of emergency medical service delivery systems requires effective communication and coordination among the various providers. Such communication and coordination can be enhanced with a comprehensive EMS Management Resource Directory, since some EMS managers might be unaware of the existence and capabilities of resources available to them. Since all EMS systems, organizations, and agencies face similar problems and conditions, the need to coordinate and share information is critical. This directory will be important in enhancing this coordination and sharing of information.

REFERENCE MATERIALS

PART I: REFERENCE MATERIALS

BOOKS AND MANUALS

Abt Associates, Inc. Trauma System Development. Washington, DC: National Highway Traffic Safety Administration, March 1988. Reports the results of a study undertaken by NHTSA to see if there were any complete trauma systems, how the manner in which trauma centers are designated affects them, and what the financial impact of trauma systems are on prehospital services and on hospitals.

American College of Emergency Physicians. Principles of EMS. Dallas: American College of Emergency Physicians, 1985. An extensive review of the key components of an EMS systems: A useful reference for all EMS professional. (Currently undergoing revision.)

Anderson, Paul B. Major EMS Incident Response Planning Booklet. Boise: Idaho Department of Health and Welfare, 1983. Helps local EMS units pre-plan their approach to major situations. Key elements are discussed in detail and in uniform statewide terminology.

Baltimore County, Maryland. Medical Priority Dispatch: A Lifesaving Concept. Baltimore: 1984, 69 pp. Describes, in detail, the Baltimore County "Medical Priority Dispatch Program" which was instituted in 1983.

Baskett, Peter, and Weller, Robin. Medicine for Disasters.
London: John Wright Publishers, 1988, 512 pp.
Discusses EMS and triage as a first responder during a
disaster situation.

Bronstein, Alvin C., and Currance, Phillip L. Emergency Care For
Hazardous Materials Exposure. St. Louis: Mosby, 1988, 398 pp.
Provides a basic medical foundation in hazardous materials
exposure and the potential medical consequences in rendering
emergency treatment in this environment.

Burns, Linda A., Peisert, Margaret, Cross, Ralph E., Ferber, Mindy,
Mensing, Raymond F., and Riggs, Leonard M., Jr., MD.
Hospital's Role In Emergency Medical Services Systems.
Chicago: American Heart Association, 1984, 180 pp.
Describes the responsibility of emergency medicine nurses and
physicians to provide assistance in the development of
effective pre-hospital EMS systems.

California Fire Chiefs Association, Los Angeles County Chapter.
Multi-casualty Incident Operational Procedures. Los Angeles:
California Fire Chiefs Association, 1985, 91 pp.
Establishes the systematic sharing of emergency medical
resources among all fire departments within Los Angeles County
in order to provide appropriate EMS in the event of a major
emergency medical incident anywhere in the county.

Childs, Bradford J., and Itanick, Donald J. Emergency Ambulance Driving. Englewood Cliffs: The Brady Co., 1986, 195 pp.
Contains objectives applicable to ambulance operations found in the DOT Training Program for Operation of Emergency Vehicles.

Clawson, Jeff J., MD, and Dernocouer, Kate Boyd, EMT-P. Principles of Emergency Medical Dispatch. Englewood Cliffs: The Brady co., 1988, 353 pp.
Provides comprehensive, life saving telephone instructions to determining when an incoming call becomes a priority dispatch.

Dernoceur, Kate Boyd, EMT-P. Streetsense: Communication, Safety, And Control. Englewood Cliffs: The Brady Co., 1985, 320 pp.
Medical technical know-how for providing safe and fast emergency field care. Provides important information on associated issues, such as death and dying, to more skillfully help those in emergency situations.

Dick, Thorn, EMT-P. Street Talk: Notes From A Rescuer. Solana Beach: JEMS Publishing Co., 1988, 177 pp.
Emphasizes the essential elements required to make EMS a long term career. Covers protecting your back, dealing with medical incompetence, and understanding the pediatric patient.

Dolev, E., and Reis, N. D. Manual of Disaster Medicine: Civilian and Military. New York: Springer-Verlag, 1989, 488 pp.
Focuses on four key points: the organization of medical services; the mechanisms and causes of injury; the treatment of wounds in general; and the treatment of wounds according to body regions.

Fitch, Joseph J., Keller, Richard A., Raynor, Doug, and Zalar, Christine M. Beyond The Street: A Handbook For EMS Leadership And Management. Solano Beach: JEMS Publishing Co, 1988, 318 PP.

Deals with all the structural and financial issues of EMS, concentrating on the most important EMS element - people.

Fitch, Joseph J., PhD. Beyond The Street. Solano Beach: JEMS Publishing Co., 1988, 301 pp.

Practical and relevant book for EMTs, paramedics, instructors and managers. Includes directories of state EMS offices and a salary survey.

Foxman, Joel. A Practical Guide To Emergency And Protective Crisis Intervention - Dealing With The Violent And Self-destructive Person. Springfield: Thomas, 1990, 319 pp.

Guide for dealing with psychiatric emergencies. Primarily focuses on verbal techniques that may be helpful when encountering a violent and self-destructive person.

Goldstein, Arnold S., JD. EMS And The Law: A Legal Handbook For EMS Personnel. Englewood Cliffs: The Brady Co., 1983, 184 PP.

Explains the legal rights and responsibilities in emergency care situations, and how to avoid legal problems.

Institute for Leadership and Volunteer Development. Volunteer Emergency Medical Systems: A Management Guide. Blacksburg: Virginia Tech, Institute for Leadership and Volunteer Development, 1990, 101 pp.

Provides information of such topics as organization, corporate structure, administration, effective leadership, risk management, finances, fund raising and public relations. Although designed for Virginia volunteer organizations, most of the information would be valuable anywhere.

Kuehl, Alexander E., and National Association of EMS Physicians EMS Medical Director's Handbook. St. Louis: Mosby, 1989, 448 pp.

Provides EMS managers of all levels with a quick reference to EMS resources.

Lazar, Richard A. EMS Law: A Guide for EMS Professionals. Rockville: Aspen Publishing, 1989, 173 pp.

Provides knowledge on the liability and litigation issues that may have an effect on emergency medical service personnel.

Mannon, James M., Ph.D. Emergency Encounters: EMTs and Their Work. Boston: Jones and Bartlett Publishers, 1992, 224 pp.

Explores how people who earn their living doing emergency ambulance work come to terms with work, cope with hazards, and learn to derive a sense of satisfaction and reward from their occupation. Focuses on decision making, social relationships, stress, and professional commitment.

Messer, George Henry. Emergency Medical Service Systems As Studied Through Simulation Modeling. College Station: Texas A & M University, 1986, 227 pp.

Provides an account of numerous EMS systems from the results of computer simulated models.

Mitchell, Jeffrey T., Ph D. Emergency Response To Crisis.

Solana Beach: JEMS Publishing Co., 1981, 218 pp.

Theoretical background and practical guidelines for management of a variety of crisis situations found in the field.

National Center for Education in Maternal and Child Health.

Emergency Medical Services for Children: A Report to the Nation. Washington, DC: National Center for Education in Maternal and Child Health, 1992.

Documents both the progress and the distance to cover in the care of critically ill and injured children through grants which sponsor Emergency Medical Service for Children (EMSC) programs.

National Commission on Fire Prevention and Control. America Burning. Washington, DC: National Commission on Fire Prevention and Control, 1973, 177 pp.

The results of almost two years of studying the most significant fire safety problems and the greatest opportunities of fire loss reduction.

National Highway Traffic Safety Administration. Emergency Medical Services: 1990 and Beyond. Washington, DC: National Highway Traffic Safety Administration, 1991.

Provides a look at NHTSA's current and future initiatives to improve EMS on a nationwide level and reach the "Year 2000 Health Objective" of the Nation.

National Highway Traffic Safety Administration. Development of Trauma Systems: A State and Community Guide. Washington, DC: National Highway Traffic Safety Administration, March 1989.

Provides the conceptual framework around which trauma systems can be developed. This guide is in lesson plan format and is a one-day training class for government officials at the Federal, state, and local level who are responsible for EMS, health systems, and highway safety.

National Institute for Occupational Safety and Health. A Curriculum Guide for Public-Safety and Emergency-Response Workers/Prevention of Transmission of Human Immunodeficiency Virus and Hepatitis B Virus. Atlanta: Department of Health and Human Services, Public Health Service Centers for Disease Control, February 1989, 159 pp.

Covers how HIV and HBV are spread; personal prevention practices; universal precautions; protective equipment; specific workplace prevention practices, including decontamination; and management of exposures.

Newkirk, William L., MD, and Linden, Richard P. Managing Emergency Medical Services: Principles And Practices. Englewood Cliffs: Brady Co., 1984, 272 pp.

Describes problems associated with EMS systems and effective management techniques to counter those problems.

Page, James O. The Magic of 3 A.M.. Solano Beach: JEMS Publishing Co., 1986, 190 pp.

Essays on the art and science of EMS, representing a wide variety of interests and knowledge related to the field of EMS.

Post, Carl J., Ph.D., EMT. Omaha Orange: A Popular History of EMS in America. Boston: Jones and Bartlett Publishers, 1992, 126 pp.

Explains the high and low points in EMS since 1964. Reviews the impact of public health and public safety on organized emergency care during the last 26 years.

Rescue Training Associates. Action Guide For Emergency Service Personnel. Englewood Cliffs: Brady Co., 1985, 630 pp.

Tips, suggestions, and recommendations for managing nearly 300 separate emergency situations.

United States Fire Administration. Administrative Manual on Use of Drugs by Fire Department Members. Washington, DC: Federal Emergency Management Agency, May 1988, 134 pp.

Assists in the understanding of drug use by fire department members. It is for advisory purposes only, providing helpful information to the fire administrators as they address identified problems.

United States Fire Administration. EMS Safety Manual. Washington, DC: Federal Emergency Management Agency, 1992. (pending)

Provides the EMS responder with information designed to increase his/her level of safety while on the job. Topics include general health and safety, scene control and incident management, vehicle safety, physical and ergonomic issues, highway operations, indoor and outdoor operations, weapons and aggression, hazardous materials, stress management and physical fitness, and the management of EMS safety programs.

United States Fire Administration. Emergency Incident Rehabilitation. Washington, DC: Federal Emergency Management Agency, 1992, 12 pp.

Contains a sample Standard Operating Procedure (SOP) on Emergency Incident Rehabilitation, including medical evaluation criteria and sample report forms. The intent is to reduce the incidence of line-of-duty illness, injury, and death to emergency response personnel due to heat stress or cold exposure.

United States Fire Administration. Emergency Vehicle Driver Training. Washington, DC: Federal Emergency Management Agency, 1991, 106 pp.

Provides a better understanding of the seriousness and responsibility of the very important position of driving an emergency vehicle.

United States Fire Administration. Fire and Emergency Service Hearing Conservation Program Manual. Washington, DC: Federal Emergency Management Agency, 1992, 55 pp.

Designed to assist fire and EMS departments and emergency response personnel in understanding the hazards of excessive occupational noise exposure, evaluates two hearing conservation programs, and provides a step-by-step approach to reduce excessive noise exposure for firefighters and EMS personnel.

United States Fire Administration. Guide to Developing and Managing an Emergency Service Infection Control Program. Washington, DC: Federal Emergency Management Agency, February 1992, 102 pp.

Designed to assist emergency managers in establishing an effective infection control program within their organizations, serving as a valuable resource to those managers seeking a clear understanding of communicable disease issues.

United States Fire Administration. Make the Right Call: EMS (Public Information, Education, and Relations Campaign). Washington, DC: Federal Emergency Management Agency, 1992.

A multi-facet public education and media campaign designed to improve public understanding of the role of EMS and when and how to access the EMS system. The campaign kit includes a variety of educational tools for use by emergency medical services and fire service organizations, community organizations, and educational organizations. These include an EMS PIER campaign kit with fact sheets, op-ed articles and a checklist of backgrounders, public service announcements and supporting materials for special press opportunities, including one-on-one interviews, editorial roundtables, and local radio station safety promotions.

United States Fire Administration. Physical Fitness Coordinator's Manual for Fire Departments. Washington, DC: Federal Emergency Management Agency, September 1990, 237 pp.

Designed as a resource tool for any Fire Department Physical Fitness Coordinator to refer to when developing, implementing, and managing a physical fitness program.

United States Fire Administration. Resources on Fire. Washington, DC: Federal Emergency Management Agency, 1991, 23 pp.

Provides a listing and description and all USFA publications and an array of user-friendly public fire education program materials.

United States Fire Administration. Stress Management Model Program for Firefighter Well-Being. Washington, DC: Federal Emergency Management Agency, 1991, 77 pp.

Provides the fire and emergency medical services with the means to conduct a stress management program. Program participants will learn about fire service stress and how to apply sound stress managing principles for the purpose of minimizing the health-ravaging and costly consequences of excessive stress.

Van de Leuv, John H., MD. Management Of Emergency Services. Rockville: Aspen Publishers Inc., 1986, 429 pp.

Covers topics dealing with the development and management of an effective EMS system. Topics include disaster management, pre-hospital care, air transport, architectural design options, recruitment of staff and public relations.

West, Katherine, RN, BSN, MS ED, CIC. Infectious Disease Handbook for Emergency Care Personnel. Philadelphia: J. B. Lippincott Company, 1987.

Serves as "the bible" for infectious disease concerns for prehospital care, especially for managers to develop policies and procedures.

Yvorra, James G. Mosby's Emergency Dictionary: Quick Reference for Emergency Responders. St Louis: Mosby, 1989, 682 pp.

The first comprehensive quick reference guide to key terms of the emergency medical profession for public safety personnel and emergency medical professionals.

REPORTS

Carlson, K., Finn, P., and Wolff, P. Report: Public Information and Education Demonstration Project for Emergency Medical Services. Vol. 1. Cambridge: Abt Associates, Inc., July 1987, 141 pp.

Provides information on EMS in order to enhance understanding of these services and how to access related information.

Carlson, K., Finn, P., and Wolff, P. Report: Public Information and Education Demonstration Project for Emergency Medical Services. Vol. 2. Cambridge: Abt Associates, Inc., July 1987, 248 pp.

Provides information on EMS in order to enhance understanding of these services and how to access related information.

Cooper, Barry A. Report: Educational Program for EMS Systems.

Washington, DC: Association of University Programs in Health Administration, 1977, 134 pp.

Describes an educational program for EMS systems administration and planning that can be tailored in response to specific needs.

Cowley, Edelstein, and Silverstein. Report: Mass Casualties: A Lessons Learned Approach (Accidents, Civil Disorders, Natural Disasters, Terrorism) - Proceeding of the First International Assembly on Emergency Medical Services. Washington, DC: National Highway Traffic Safety Administration, 1986, 372 pp. Addresses EMS as it relates to accidents, civil disorders, natural disasters, and terrorism. Identifies and recommends actions to make EMS more effective when dealing with mass casualty situations.

Dynes, Russell R., and Quarantelli, E. L. Report: Role Stressors and Supports for Emergency Workers. Rockville: National Institute of Mental Health, 1985, 154 pp.

Addresses the wide range of issues and concerns about the psychological impact of continuous exposure to daily stresses on emergency workers.

Harrison, Elizabeth A. Report: Emergency Medical Services: Transportation (1964 - 1980) - Citations. Springfield: National Technical Information Service, December 1980, 62 pp. Covers selected citations on emergency medical air and ground transportation for rural and urban areas.

Hartsough, Don M., and Myers, Diane Garaventa. Report: Disaster Work and Mental Health: Prevention and Control of Stress Among Workers. Rockville: National Institute of Mental Health, 1985, 154 pp.

Focuses attention on emergency workers' needs, specifically to increase understanding of the problems faced by emergency workers and the likely health and mental health impact on the workers.

National Highway Traffic Safety Administration. Report: Emergency Medical Services Public Information, Education and Relations Conference. Washington, DC: National Highway Traffic Safety Administration, April 1991, 30 pp.

The principle issues addressed at this conference were to identify and prioritize the public information and education needs of EMS providers: identify strategies to implement the ASTM standards of Public Information and Education; and identify strategies to educate EMS peers, government officials and the general public about the EMS system. The conference attempted to secure agreement by a panel of EMS experts on these issues.

National Institute for Occupational Safety and Health. Report: Guidelines for Prevention of Transmission of Human Immunodeficiency Virus and Hepatitis B Virus to Health-Care and Public-Safety Workers. Atlanta: U.S. Department of Health and Human Services, Public Health Service Centers for Disease Control, 1989, 45 pp.

Provides an overview of the modes of transmission of human immunodeficiency virus (HIV) in the workplace, an assessment of the risk of transmission under various assumptions, principles underlying the control of risk, and specific risk-control recommendations for employers and workers. These guidelines are intended for use by a technically informed audience.

National Highway Traffic Safety Administration. Report: Report of the Conference for Coordination of National EMS and Injury Control Information Resource Management. Washington, DC: National Highway Traffic Safety Administration, July 1989, 68 pp.

A meeting of private sector EMS-related organizations on ways and means to improve coordination of their respective programs for dissemination of national EMS and injury control information.

National Highway Traffic Safety Administration. Report: Second Session of the Conference for Coordination of National EMS and Injury Control Information Resource Management. Washington, DC: National Highway Traffic Safety Administration, November 1989, 77pp.

Promotes activities to improve public access to and dissemination of information needed for the evaluation and improvement of EMS and injury control programs in the United States.

Office of Technology Assessment. Report: Rural Emergency Medical Services. Washington, DC: The Office of Technology Assessment, November 1989, 104 pp.

Addresses the problems of health care in rural areas and the difficulty in providing medical technologies commonly available in urban areas.

Rice, Dorothy P., MacKenzie, Ellen J., and Associates. Cost of Injury in the United States. Washington, DC: National Highway Traffic Safety Administration, 1989.

Provides an estimate of the economic losses in the U.S. caused by injuries. The losses are further broken down by specific injuries (e.g., motor vehicle, firearms, fires and burns, etc.).

Shuman, Larry, and Wolfe, Harvey. Report: Rural Emergency Medical Services System Project Study - Final Report. Vol. 1. Pittsburgh: University of Pittsburgh, Health Operations Research Group, April 1988, 180 pp.

Designed as an aid for EMS system planners to evaluate different modes of delivery of pre-hospital EMS, utilizing computer simulation models to conceptualize the effects of various countermeasures in rural EMS systems.

Shuman, Larry, and Wolfe, Harvey. Report: Rural Emergency Medical Services System Project Study - Final Report. Vol 2. Pittsburgh: University of Pittsburgh, Health Operations Research Group, April 1988, 149 pp.

Designed as an aid for EMS system planners to evaluate different modes of delivery of pre-hospital EMS, utilizing computer simulation models to conceptualize the effects of various countermeasures in rural EMS systems.

United States Fire Administration. Report: Second Forum on Communicable Diseases. Emmitsburg: Federal Emergency Management Agency, 1989, 52 pp.

Addresses concerns of occupational exposure to Human Immunodeficiency Virus (HIV) and Hepatitis-B by firefighters, emergency medical technicians, paramedics and other emergency responders.

United States Fire Administration. Report: Report on the National Form on Emergency Medical Services Management - Feb. 10-12, 1992. Washington, DC: Federal Emergency Management Agency, 1992, 150 pp.

Summarizes the results of this meeting of representatives of national EMS interest groups and Federal agencies, and provides a complete discussion of the proceedings. Included in the results are a revised consensus definition of "EMS System", and broad objectives and target areas for Federal initiatives and the development of national consensus standards in the area of EMS.

INVESTIGATIVE REPORTS

These reports provide detailed information on the cause of the incident and the problems encountered during fire, rescue, and EMS operations. The recommendations included in these reports could assist policymakers in the allocation of resources and the improvement of training, public education and awareness, and technology transfer.

The United States Fire Administration undertakes investigations of selected major incidents where there are multiple casualties, extensive property damage or some other significant aspect to the incident that merits Federal and emergency service attention because it can contribute to knowledge about firefighting, rescue, fire prevention, emergency medical response, and hazardous materials emergency response.

National Transportation Safety Board Special Investigation Report:
Emergency Fire Apparatus. Washington, DC: National Transportation Safety Board, March 1991, 32 pp.

This report discusses safety issues such as fire department vehicle maintenance programs and State inspection programs, fire department operating procedures concerning manual brake limiting valves and engine retarders, and fire apparatus occupant seatbelt use.

United States Fire Administration Technician Report: Sixteen-Fatality Fire in High-rise Residence for the Elderly Johnson City, Tennessee (December 24, 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 39 pp.

This Christmas Eve fire caused the death of 14 residents and two visitors and injured 50 other people (including 15 emergency response personnel). The report outlines lessons learned for legislators, code officials, emergency response personnel, and building owners.

United States Fire Administration Technician Report: Industrial Plastics Fire: Major Triage Operation Flint Township, Michigan (November 29, 1988). Emmitsburg: United States Fire Administration, National Fire Data Center, 1988, 52 pp.

The successful outcome of this fire is credited to the incident command system used, including a strict requirement for SCBA use and rotation of personnel.

United States Fire Administration Technician Report: Swimming Pool Chemical Plant Fire Springfield, Massachusetts (June 17, 1988). Emmitsburg: United States Fire Administration, National Fire Data Center, 1988, 55 pp.

This fire caused evacuation of 6,000 people and two million dollars in plant damage, lasted four days and damaged fire department equipment from exposure to chlorine gas and related products.

United States Fire Administration Technician Special Report: Fire Apparatus/Train Collision Catlett, Virginia (September 28, 1989). Emmitsburg: United States Fire Administration, Office of Firefighter Health and Safety, September 1991, 45 pp.

This special investigation report details the circumstances of and the emergency response to the fire apparatus/train collision. It is a summary of the investigation reports prepared by the National transportation Safety Board (NTSB). It discusses the lessons learned from the collision and emergency response management.

United States Fire Administration Technician Report: Ramada Inn Air Crash and Fire Wayne Township, Indiana (October 20, 1987). Emmitsburg: United States Fire Administration, National Fire Data Center, 1987, 44 pp.

Employee training, a disaster plan and a fire department incident command system contributed to safety of occupants during evacuation after a military jet crashed into a hotel lobby.

United States Fire Administration Technician Report: Twelve-Fatality Nursing Home Fire Norfolk, Virginia (October 5, 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 34 pp.

Many patients restrained to beds with cotton cravats or connected to life support systems made evacuation by firefighters extremely difficult.

United States Fire Administration Technician Report: Evacuation of Nanticoke, Pennsylvania Due to Metal Processing Plant Fire (March 24, 1987). Emmitsburg: United States Fire Administration, National Fire Data Center, 1987, 37 pp.

This report proves the important of pre-fire planning and emergency preparedness. Pre-planning and repeated practice of vital operations such as alert and notification, traffic control, and evacuation provide emergency workers with the capability to response naturally to roles.

United States Fire Administration Technician Report: Phillips Petroleum Chemical Plant Explosion and Fire Pasadena, Texas (October 23, 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 94 pp.

A massive explosion throwing metal and concrete debris as far as six miles away caused 23 deaths and at least 100 casualties. Subsequent evacuation, fire control and overall incident command worked extremely well guided by the (Houston) Channel Industries Mutual Aid pre-fire plan.

United States Fire Administration Technician Report: College Dormitory Fire in Dover, Delaware and Farmville, Virginia (April 1987). Emmitsburg: United States Fire Administration, National Fire Data Center, 1987, 47 pp.

Student apathy, vandalism, false alarms and the unsafe use of extension cords contributed to one death, numerous injuries and property loss in these fire.

United States Fire Administration Technician Report: Gasoline Tanker incidents in Chicano, Illinois and Fairfax County, Virginia: Case Studies in Hazardous Materials Planning (March/May 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 93 pp.
Effective planning, incident command and agency cooperation led to successful control in these major roadway "haz-mat" incidents.

United States Fire Administration Technician Report: Shenendoah Retirement Home Fire Roanoke County, Virginia (December 14, 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 32 pp.
Four senior citizens died due to smoke inhalation in this fire. Severe winter conditions delayed fire service arrival and many of the residents used wheelchairs, canes and walkers, thus slowing evacuation.

United States Fire Administration Technician Report: Success Story at Retirement Home Fire Sterling, Virginia (December 16, 1989). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 59 pp.
This three-story retirement home exceeded code requirements. Automatic sprinklers controlled fire extension; and casualties or extensive damage were prevented by automatic alarms, a history of fire drills, and an effective fire department incident command system.

United States Fire Administration Technician Report: Fire and Explosions at Rocket Fuel Plant Henderson, Nevada (May 1988). Emmitsburg: United States Fire Administration, National Fire Data Center, 1989, 37 pp.
Interagency coordination among fire, EMS, police and other agencies and successful triage are discussed.

United States Fire Administration Technician Special Report: Mutual Aid: Lessons Learned from the California System. Emmitsburg: United States Fire Administration.
Summary pending.

United States Fire Administration Technician Special Report: The Value of Pre-Incident Planning for effective emergency Management. Emmitsburg: United States Fire Administration.
Summary pending.

JOURNALS AND NEWSLETTERS

ACEP NEWS

American College of Emergency Physicians

1125 Executive Circle

Irving, TX 75038-2522

Phone: (800)798-1822

Monthly.

Provides news about issues related to the specialty of emergency medicine such as education programs and government activities.

JOURNAL OF AIR MEDICAL TRANSPORT

Aviation Press

288 W. Center Street

Orem, UT 84057

Phone: (801)226-5555

Monthly.

Covers news and educational material for professionals involved in the emergency care air services.

AMERICAN JOURNAL OF EMERGENCY MEDICINE

3800 Reservoir Road, N.W.

Washington, DC 20007

Phone: (202)784-2073

Bimonthly.

Contains reports, correspondences and opinions on trauma, critical care, EMS, behavioral emergencies, environmental medicine and other related topics.

ANNALS OF EMERGENCY MEDICINE

P.O. Box 619911

Dallas, TX 75261

Phone: (214)550-0911; (800)798-1822

Monthly.

Contains updates and reviews on issues affecting the field of emergency medicine and features a section devoted to EMS.

BURN CARE & REHABILITATION

Mosby - Year Book, Inc.

11830 Westline Industrial Dr.

St. Louis, MO 63146-3318

Phone: (800)325-4177, ext. 4351; (314)453-4351

Bimonthly.

Focuses on articles and issues of concern to professionals in the area of critical burn care and rehabilitation.

CRITICAL CARE NURSING QUARTERLY

Aspen Publishers, Inc.

200 Orchard Ridge Drive, Suite 200

Gaithersburg, MD 20878

Phone: (301)417-7500

Quarterly.

Provides current practice-oriented information for the continuing education and improved clinical practice of critical care professionals.

DISASTER MANAGEMENT

Queensway House
2 Queensway
Redhill, Surrey RH1 1QS
England
Phone: 0737-768611

Quarterly.

Focuses on the dissemination of knowledge relating to disaster management and contingency planning for large-scale emergencies.

DISASTERS

The Journal for Disaster Studies and Management
Blackwell Publishers
3 Cambridge Center
Cambridge, MA 01242
Phone: (617)225-0401

Quarterly.

Provides research information on disasters and relief and emergency management. Contains academic papers, book reviews and conference papers.

EMERGENCY

Journal of Emergency Services
6300 Yarrow DR.
Carlsbad, CA 92009
Phone: (619)438-2511; (800)854-6449

Monthly.

Provides information of interest on emergency medical care and related issues for professional paramedics and EMT's.

EMERGENCY MANAGEMENT DISPATCH

Department of Political Science
University of Delaware
Newark, DE 19716

Phone:

Newsletter for public officials to increase their knowledge of disaster management.

EMERGENCY MANAGEMENT QUARTERLY

Council on Emergency Management
American Public Works Association.
1313 East 60th St.
Chicago, IL 60637
Phone: (312)667-2200

Quarterly.

Focuses of issues and techniques pertaining to emergency response management, recovery and mitigation

EMERGENCY MANAGEMENT TODAY

Emergency Management Group
1508 E. 68th St., Suite 315
Indianapolis, IN 46240
(317) 255-3485

Semi-monthly.

Focuses information pertinent to the effective operation of emergency systems of all types.

EMERGENCY MEDICAL SERVICES

Creative Age Publications

7628 Densmore Ave.

Van Nuys, CA 91406

Phone: (818)782-7328

Monthly.

Features in-depth clinical articles with a practical hands-on approach for all levels of pre-hospital emergency care providers.

EMERGENCY MEDICAL TECHNICIAN LEGAL BULLETIN

Med-Law Publishers Inc.

P.O. Box 293

Westville, NJ 08093

(609) 848-3817

Quarterly.

Provides information on medical legal cases and current legal issues affecting EMS personnel.

EMERGENCY MEDICINE NEWS

J.B. Lippencott Co.

1180 Avenue of the Americas, 6th Floor

New York, NY 10036

(212) 840-7760

Monthly.

Covers national news related to all aspects of clinical, legal and personnel issues in the field of emergency medicine.

EMERGENCY MEDICINE REPORTS

American Health Consultants

67 Peachtree Park Dr. NE

Atlanta, GA 30309

(404) 262-7436

Biweekly.

Reviews clinical topics and discusses new issues related to emergency medicine.

EMERGENCY PREHOSPITAL MEDICINE

CME Communications, Inc.

20854 Dalton Rd.

P.O. Box 507

Sutton West, Ontario L0E 1R0, Canada

Phone: (800)263-1095; (416)722-9839

Quarterly.

Provides a source of medical, business, educational and professional news for members of EMS systems and other interested allied health professions.

EMERGENCY PREPAREDNESS NEWS

Business Publishers Inc.

951 Pershing Dr.

Silver Springs, MD 20910

Phone: (301)587-6300

Biweekly.

Covers topics on contingency planning, crisis management, and disaster relief.

EMS DISPATCH

Emergency Health Services Federation

P.O. Box 446

Lemoyne, PA 17043

Phone: (800)3340-3473; (717)763-0730

Bimonthly.

Focuses on issues of concern for individuals and organizations interested in improving life support services in South Central Pennsylvania.

EMS INSIDER (Newsletter)

JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone (619) 431-9797

Monthly.

Provides EMS professionals with practical information about the legislation, regulations, medical developments, financial news and management tips most relevant to EMS.

JOURNAL OF THE AMERICAN AMBULANCE ASSOCIATION

3814 Auburn Blvd.

Suite 70

Sacramento, CA 95821

Phone: (916)483-3827

Bimonthly.

Contains information on education, legislation and other issues of interest to the ambulance industry and the EMS system.

JEMS

JOURNAL OF EMERGENCY MEDICAL SERVICES

JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone (619) 431-9797

Monthly.

Provides education, motivation and entertainment for emergency medical personnel with timely material on all aspects of field.

JOURNAL OF TRAUMATIC STRESS

Plenum Publishing Corporation

233 Spring Street

New York, NY 10013

Phone: (212)620-8000

Quarterly.

Focuses on theoretical formulations, research, treatment, prevention, education/training, and issues and policy concerns in the field of traumatic stress.

MEDICAL 911

JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone (619) 431-9797

Bimonthly.

Serves the information needs of the health professional who administers, plans or delivers EMS. Consists of the EMS Communicator Newsletter; EMS reports issued by government, industry, public and private organizations; EMS agencies and organizations; EMS books; EMS instructional materials; and index to EMS literature.

PREHOSPITAL AND DISASTER MEDICINE

JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone (619) 431-9797

Quarterly.

Provides an academic forum for the reporting of information on prehospital emergency medical services and disaster medicine, following accepted principles of peer-reviewed research.

RESCUE

JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone (619) 431-9797

Bimonthly.

Covers heavy urban rescue, auto extrication, hazardous materials and search techniques. Builds basic skills while introducing innovations and information that bring rescue and basic life support together.

TOPICS IN EMERGENCY MEDICINE

Aspen Publishers, Inc.

200 Orchard Ridge Drive

Suite 200

Gaithersburg, MD 20878

Phone: (301)417-7500

Quarterly.

Provides practical, authoritative, clinical information that, while medically oriented, encompasses the coordinated responsibilities of emergency physicians, nurses, and paramedics.

TRAUMA QUARTERLY

Aspen Publishers Inc.
200 Orchard Ridge Drive
Suite 200
Gaithersburg, MD 20878
Phone: (301)417-7500
Quarterly.

Focuses on articles to promote quality clinical practices in the trauma care setting.

TRIAGE

Doctors for Disaster Preparedness
American Civil Defense Association
P.O. Box 1057
Starke, FL 32091
Phone: (305) 743-6297
Quarterly.

Provides instructions in various first-aid techniques and contains articles related to disaster issues and emergency preparedness.

AUDIOVISUALS (Films, Videos and Slides/Cassettes)

Ambulance Run. (16mm or video; 27 min) Coronet/MTI.

Teaches Ambulance drivers how to become professionals behind the wheel. Covers pre-check procedures; how to maneuver and control speed to reduce accidents in emergency driving situations.

Between Life And Death. (film; 26 min.) National Highway Traffic Safety Administration; Amram Nowak Association: 1978.

Describes an efficient emergency medical services system, providing the necessary coordination, transportation, and communication to bring an injured person under medical care in the shortest possible time.

Choose Life. (film; 20 min.) Blue Cross of Connecticut; Rediscovery Productions.

Documents the attempt by the Emergency Medical Council of Milford, Connecticut to weld its traditionally autonomous police, fire, and ambulance services into a single emergency medical delivery system.

Dallas/Fort Worth Airline Disaster. (video; 45 min.) Professional Video Services; Naples, FL/International Disaster Management Conference, Orlando, FL.; February 1986.

This video discusses the Dallas/Fort Worth airline disaster and the management of emergency services.

Emergency Medical Update. (Monthly video magazine; 30 min).

Information on all aspects of emergency care. Each episode covers one aspect of DOT curriculum. Also new techniques and equipment are demonstrated. Specific situations are reviewed and critiqued.

Emergency Victim Care: Extrication From Vehicle. (slides/cassette: 13 min) Ohio State University Instructional Materials Laboratory: Columbus, OH.

Discusses methods and tools for extrication of accident victims from the vehicle.

Facts About AIDS: For Emergency Care Personnel. (slides/cassettes and VHS) Morton Publishing Co.

Reviews currently known facts about AIDS and how it is transmitted and how EMS personnel can protect themselves.

Managing Mass Casualty Incidents. (video: 23 min.) Audiovisual Services Productions: Akron, OH; 1985.

Describes the management principles involved in managing a mass casualty incident.

Trauma: Will You Survive? Feddersen, Annette K., M.Ed., RN, REMT-P. (video: 18 min.) Emergency Training, Miller Landing; Akron, OH: 1990.

Depicts the need for a pre-planned, coordinated EMS system if morbidity and mortality from trauma are to be reduced. An excellent "primer" on why and how EMS systems and organized trauma programs save lives and is ideal for use with professional groups as well as the lay public.

MAJOR PUBLISHERS OF EMS LITERATURE

ON-LINE EMS DATA BASES

CENDATA

Bureau of Census

Washington Plaza, Rm. 315, Washington, D.C. 230233

Phone: (800)434-5216

Covers information on the 1990 census and the national economy.

CURRENT CONTENTS

Institute for Scientific Information

3501 Market St.

Philadelphia, PA 19104

Phone: (800)336-4474

Contains content of medical journals, medical articles and reports from other sources.

MEDLINE

National Library of Medicine

MEDLARS Management Section

8600 Rockville Pike

Bethesda, MD 20894

Phone: (800)638-8480

Contains content of biomedical and emergency medicine journals. Also available are articles on issues related to emergency medicine.

NATIONAL ASSOCIATION OF EMS PHYSICIANS DATABASE PROJECT

230 McKee Place

Suite 500

Pittsburgh, PA 15213

Phone: (800)228-3677/(412)578-3222

Contains annotated EMS literature and articles from general emergency medicine sources with appropriate editorial comments.

NATIONAL CENTER FOR HEALTH STATISTICS (HCHS)

Scientific and Technical Information Branch

National Center for Health Statistics

6525 Belcrest Rd.

Room 1064

Hyattsville, MD 20782

Phone: (301)436-8500

Provides reports and publications on vital and health statistics for the United States.

**TRAUMA/EMERGENCY MEDICAL SERVICES INFORMATION EXCHANGE SYSTEMS
(TIES)**

National Study Center of Trauma and Emergency Medical Systems

MIEMSS/University of Maryland at Baltimore

22 South Greene Street

Baltimore, MD 21201

Phone: (410)328-7231

This data base has five subsections: documents, data bases, experts, organizations, and serial publications. On-line searches in each subsection are available.

INFORMATION CLEARINGHOUSES

CONGRESSIONAL FIRE SERVICES INSTITUTE

900 2nd Street, N.E.

Suite 118

Washington, D.C. 20002

Phone: (202)371-1277

FAX: (202)682-FIRE

Provides listings of people and organizations that concern themselves with issues that affect Emergency Medical Systems.

EMERGENCY CARE INFORMATION CENTER

c/o JEMS Communications

P.O. Box 2789

Carlsbad, CA 92018

Phone: (619) 431-9797

Fax: (619)431-8135

Maintains a multi-faceted data resource base and provides information on all aspects of EMS research, staff training, management, clinical operations, and business planning.

HRS/FLORIDA EMS CLEARINGHOUSE (HSTM)

1317 Winewood Blvd.

Tallahassee, FL 32399-0700

Phone: (904)487-6731/(904)487-1911

FAX: (904)488-2512

SUMCOM: 277-1911

Consists of journal articles, monographic works (books) and audiovisual materials.

LEARNING RESOURCE CENTER

United States Fire Administration
National Emergency Training Center
16825 S. Seton Avenue
Emmitsburg, MD 21727
Phone: (301)447-1030 / (800)638-1821
FAX: (310)638-1821

Contains a collection of over 40,000 books, reports, magazines, and audio-visual materials related to fire, EMS, emergency management, and disasters. Inter-library loans, literature searches, and reference work is available through phone or mail requests.

NATIONAL EMS CLEARINGHOUSE

c/o The Council for State Governments
P.O. Box 11910
Iron Works Pike
Lexington, KY 40578
Phone: (606)252-2291

Provides information from journals, books and manuals, reports and audiovisual materials.

NATIONAL STUDY CENTER FOR TRAUMA AND EMERGENCY MEDICAL SYSTEMS

MIEMSS/University of Maryland at Baltimore
22 South Greene Street
Baltimore, MD 21201
Phone: (410)328-7231

Provides information from journals, newsletters, books, and research reports.

PART II

PUBLIC AND PRIVATE

EMS RELATED ORGANIZATIONS

PART II: PUBLIC AND PRIVATE EMS RELATED ORGANIZATIONS

ASSOCIATIONS AND ORGANIZATIONS

AMERICAN ACADEMY OF PEDIATRICS

141 Northwest Point Blvd.

P.O. Box 927

Elk Grove Village, IL 60009-0927

Phone: (708)228-5005

Executive Director, James Strain, MD

Periodicals: "AAP News" (monthly)

"Pediatrics" journal (monthly)

Conference: Annually

Mission: Committed to the attainment of optimal physical, mental, and social health for all infants, children, adolescents, and young adults.

ASTM COMMITTEE F-30

1916 Race Street

Philadelphia, PA 19103

Phone: (215)299-5521

FAX: (215)299-2630

Staff Manager, Stephen F. Mawn

Periodicals: "Standardization News" newsletter (monthly)

Conferences/Meetings: Semi-Annually

Professional Programs: Workshops and Training

Mission: A large group of individuals who share a concern about the quality of EMS. The committee meets twice a year to assess needs, develop standards and sponsor workshops for all aspects of EMS except clinical medical practice.

AMERICAN AMBULANCE ASSOCIATION

3814 Aburn Blvd., Suite 70

Sacramento, CA 95821

Phone: (916)483-3827

Executive Vice President, David Nevins

Periodicals: "Ambulance Industry Journal" (bi-monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Provide education, legislative representation and unity to the ambulance industry while helping to upgrade the EMS system.

AMERICAN ASSOCIATION OF CRITICAL-CARE NURSES

101 Columbia

Aliso Viejo, CA 92656

Phone: (800) 899-AACN

Fax: (714) 362-2020

Periodicals: "Heart and Lung" (bi-monthly)

"Focus on Critical Care" (bi-monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Promote the health and welfare of those experiencing critical illness or injury by advancing the art and science of critical care nursing and promoting environments that facilitate comprehensive professional nursing practice.

AMERICAN COLLEGE OF EMERGENCY PHYSICIANS

P.O. Box 619911

Dallas, TX 75261-9911

Phone: (214) 550-0911

EMS Director, Donald E. Kerns

Periodicals: "Annals of Emergency Medicine" (monthly)

Conference : Annually

Professional Programs: Seminars and Training

Mission: Support quality emergency care and promote the interests of emergency physicians.

AMERICAN COLLEGE OF SURGEONS, COMMITTEE ON TRAUMA

55 East Erie Street

Chicago, IL 60611-2797

Phone: (312)664-4050

Director, Paul A. Ebert, MD, FACS

Periodicals: "The Bulletin" magazine

Conferences: Annually

Professional Programs: Educational programs and activities

AMERICAN TRAUMA SOCIETY

8903 Presidential Parkway, Suite 512

Upper Marlboro, MD 20772-2656

Phone: (301)420-4189; (800)556-789

Executive Director, Thomas G. Monday

Periodicals: "Traumagram" (7 times yearly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Prevention of trauma and the improvement of trauma care.

ASSOCIATED PUBLIC-SAFETY COMMUNICATIONS OFFICERS INC.

2040 S. Ridgewood Ave.

South Daytona, FL 32119

Phone: (904) 322-2500

Executive Director, Robert E. Tall

Periodicals: "The APCO" bulletin (monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Enhance public safety communications of State and local governments.

ASSOCIATION FOR MEDICAL EMERGENCY INFORMATICS, INC. (AMEI)

21155 Woodfield Road

Gaithersburg, MD 20882

Phone: (301)330-3366

FAX: (301)869-5636

Executive Director, Fredric D. Abramson

Conference: Annually

Professional Programs: Seminars and Training

Mission: Improve how information about medical emergencies, trauma, and injury control is captured, transferred, managed and used.

ASSOCIATION OF AIR MEDICAL SERVICES (AAMS)

35 S. Raymond Ave., Suite 205

Pasadena, CA 91105

Executive Director, Nina Merrill

Phone: (818)793-1232

FAX: (818)743-1039

Periodicals: "Journal of Air Medical Transport" (monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Dedicated to research, information sharing and other endeavors to represent the emergency air medical industry.

CENTER FOR INTERNATIONAL EMERGENCY MEDICAL SERVICES (CIEMS)

Humboldstr. 12A

W-6200 Wiesbaden, Germany

Phone: 0611-507891

FAX: 0611-370593

Chairman, Eelco H. Dykstra, MD

Conference: Annually

Professional Programs: Seminars and Training

Mission: Develop an informal international information exchange network consisting of experts in topics related to emergency medicine, intensive care medicine and disaster medicine.

CONGRESSIONAL FIRE SERVICE INSTITUTE

900 2nd Street, N.E.

Suite 118

Washington, D.C. 20002

Executive Director, John McNichol

Phone: (202)371-1277

FAX: (202)682-FIRE

Conference: Annually

Professional Programs: Seminars and Workshops.

Mission: Serves as a vital link in communications between Congress and the fire service community through a variety of programs and activities.

DOCTORS FOR DISASTER PREPAREDNESS (DDP)

2509 N. Campbell

Box 272

Tucson, AZ 85719

Phone: (602)325-2680

President, Gerald Looney, MD

Periodicals: "DDP Newsletter: Civil Defense Perspectives" (bi-monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Prepare physicians, health professional and personnel, and the public for medical response in the event of naturally or artificially caused disaster.

EMERGENCY NURSES ASSOCIATION (ENA)

230 East Ohio Street

Suite 600

Chicago, IL 60611-3297

Phone: (312)649-0297

Executive Director, H. Stephen Lieber

Periodicals: "Journal of Emergency Nursing" (bi-monthly)
"ETCETERA" newsletter (9 times yearly)

Conference: Annually

Professional Programs: Educational programs and activities

Mission: Dedicated to the advancement of emergency nursing practice and committed to excellence in emergency care. ENA assists emergency nurses, emergency care managers, hospital administrators and others in understanding the function, importance and impact of the role of emergency nurses through its professional publications, legislative updates and public relations activities regarding emergency nursing practice.

EMERGENCY NURSES C.A.R.E. INC. (CANCEL ALCOHOL RELATED EMERGENCIES)

18 Lyman St.

Westboro, MA 01581

Phone: (508)366-7591

Associate Director, Janet Lassman

Periodicals: "CARE-ing" newsletter (quarterly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Provide educational programs aimed at decreasing the injuries and deaths due to underage alcohol use and drinking and driving.

FARMEDIC TRAINING INC.

Alfred State College

Alfred, NY 14802

Phone: (607)587-4734

President, Richard Hoffman

Conference: Annually

Professional Programs: Seminars and Training

Mission: Provide farm accident rescue training to rural fire rescue, and EMS personnel.

HELICOPTER ASSOCIATION INTERNATIONAL (HAI)

1619 Duke Street

Alexandria, VA 22314-4646

Phone: (703) 683-4745

President, Frank L. Jensen Jr.

Periodicals: "Helicopter Annual (annually): "Rotor" magazine (quarterly): "Operations Update" (monthly); "The Fly Neighborly Guide", "The Heliport Development Guide", "Safety Manual" and "Safety Management Reference Guide", "Malfunction or Defect Report" (monthly): "Preliminary Accident Report" (monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Advance civil helicopter operations and promote the helicopter as a safe and efficient mode of transportation.

INTERNATIONAL ASSOCIATION OF FIRE CHIEFS

1329 18th Street, N.W.

Washington D.C. 20036-6516

Phone: (202)833-3420

Executive Director, Garry L. Briese, CAE

Periodicals: "IAFC On Scene" (bi-monthly); "Fire and Emergency Services Leadership Directory" (annually): "Fire and Emergency Services Fax Directory" (annually)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Provide fire chiefs, fire officers, and emergency management specialists, managers and supervisors throughout the international community with information, educational services and representation to enhance their professional capabilities to serve and protect citizens from the devastation of fire, environmental, natural and other emergencies.

INTERNATIONAL ASSOCIATION OF FIRE FIGHTERS

Washington, D.C. 20006

Phone: (202)737-8484

President, Alfred K. Whitehead

Periodicals: "International Fire Fighter" (bi-monthly)

Conference: Annually

Professional Programs: Seminars and Training

Mission: Provide an informal international information exchange network for professional fire fighters, fire-prevention personnel, EMT's paramedics, and rescue personnel.

INTERNATIONAL RESCUE AND EMERGENCY CARE ASSOCIATION

3421 M Street, N.W.

Suite 1100

Washington, DC 20007

Phone: (800) 221-3435

President, 1st Sgt John Herbert, New Jersey State Police

Periodicals: "RESCUER" newsletter (quarterly)

Conferences: Annually

Mission: Working for the improvement of rescue and emergency care standards and techniques, with the widest dissemination of information to rescue and emergency medical care personnel.

NATIONAL ASSOCIATION FOR SEARCH AND RESCUE (NASAR)

P.O. Box 3709

Fairfax, VA 22038

Phone: (703)352-1349

President, Jim O'Brien

Periodicals: "Response" Magazine

Conference: Annually

Professional Programs: Seminars and Training

Mission: Work toward the development of improved communications and coordination between Federal, State, local and volunteer SAR groups.

NATIONAL ASSOCIATION OF AIR-MEDICAL COMMUNICATIONS SPECIALISTS (NAACS)

P.O. Box 34531

Phoenix, AZ 85067-4531

Phone: (602)230-9117

Executive Director, David McIntire

Professional Programs: Seminars and Training

Mission: Promote an understanding and education of the Air-Medical Communication Specialist's role in the air medical service.

NATIONAL ASSOCIATION OF EMERGENCY MEDICAL SERVICES PHYSICIANS

230 McKee Place

Suite 500

Pittsburgh, PA 15213

Phone: (412)578-3222

President, Raymond Fowler, MD

Periodicals: "Pre-hospital and Disaster Medicine" (quarterly)

"NAEMSP News" (quarterly)

Mission: Seeks to answer the need of the EMS leaders for mutual support and to act as a forum for the generation and debate of issues supportive of EMS as an area of medical care worthy of high standards and capable of influencing morbidity and mortality.

NATIONAL ASSOCIATION OF EMERGENCY MEDICAL TECHNICIANS

9140 Ward Parkway

Kansas City., MO 64114

Phone: (816)444-3500

FAX: (816)444-0330

Chief Staff Officer, Ms. Lottie Thomas

Periodicals: "NAEMT News" (monthly)

Professional Programs: Educational programs

Conference: Annually

Mission: Promote and encourage the professional status of the emergency medical technician (EMT), the national acceptance of a uniform standard of recognition for the skill and abilities of the EMT, and the establishment of emergency medical services systems at the municipal, county, regional, state and national levels. NAEMT further serves to offer information and guidance on current concepts of emergency medical care and government policies related to the control, certification and licensure of EMTs while promoting the public welfare and education of the general public in emergency medical services.

NATIONAL ASSOCIATION OF EMERGENCY VEHICLE, TECHNICIANS

P.O. Box 790

Hauppauge, NY 11788

Phone: (301)916-2300

Professional Programs: Seminars and Training

Mission: Combine the original research and practical experience to
improve the delivery of everyday and mass casualty pre-hospital
emergency medical care.

FEDERAL AGENCIES

FEDERAL EMERGENCY MANAGEMENT AGENCY

United States Fire Administration

16825 S. Seton Ave.

Emmitsburg, MD 21727

Phone: (301) 447-1185

FAX: 301/447-1395

Mission: Increase the efficiency and effectiveness of fire service management across the country. The purpose of the Emergency Medical Services program of the USFA is to address a major component of this issue -- the management of emergency medical services. USFA will conduct research, produce publications, disseminate information, and cooperate with other agencies and organizations in an ongoing effort to increase the efficiency and effectiveness of the management of pre-hospital emergency medical services.

National Fire Academy

United States Fire Administration

16825 S. Seton Ave.

Emmitsburg, MD 21727

Phone: (301)447-1333

FAX: 301/447-1098

Mission: Presents training programs directed at improving the management of fire and emergency medical services. The programs are open to employees of both public and private agencies. Programs are provided at the main campus in Emmitsburg, Maryland and by extension programs throughout the United States.

State and Local Programs & Support Directorate

500 C Street, S.W., # 613

Washington, D.C. 20472

Phone: (202)646-2945

FAX: 202/646-4254

Mission: Serves as FEMA's principle POC for all Federal emergency programs and initiatives by administering and coordinating Federal assistance. Provides technical and financial assistance to State and Local governments to support their efforts to:

- A. Develop and maintain an effective emergency management and response capability.
- B. Reduce the effects of emergencies upon life and property.
- C. Mitigate the cause for emergencies by developing local programs which are intended to prevent the loss of life and property.
- D. Develop plans and procedures for consequence management of terrorism.

Emergency Management Institute

State and Local Programs & Support Directorate

16825 S. Seton Ave.

Emmitsburg, MD 21727

Mission: Provides training on disaster-related issues to state and local emergency managers and interested individuals. Programs are provided at the National Emergency Training Center in Emmitsburg, Maryland; through field programs throughout the United States; and through home-study courses.

National Preparedness (NP) Directorate

500 C Street, SW, Rm. 618

Washington, DC 20472

PHONE: (202)646-4554

FAX:202/646-3397

Mission: Responsible for assessing the ability for the nation to respond to a national security emergency. Under Executive Order 12565, it is the responsibility of the NP to report to the President the ability of various Federal departments and agencies to meet their assigned functions - including medical mobilization.

NP represents FEMA on the Directorate and Staff of the National Disaster Medical System (NDMS). FEMA is committed to NDMS through an Interagency Agreement signed with the Department of Health and Human Services.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Emergency Medical Services Division

Room 5119, NTS-42

400 Seventh St., S.W.

Washington, D.C. 20590

Mission: Conduct research and demonstration projects; distribute state-of-the-art information; provide on-site technical assistance to states and national organizations; conduct national meetings and workshops on EMS issues; support the development of national consensus EMS standards; and serve as a liaison to national EMS/trauma organizations.

Administers implementation of Standard 11 of Section 402 of the Highway Safety Act of 1966. Section 402 is a block grant program to the states which enables them to improve highway safety. Standard 11 on Emergency Medical Services is one of 18 program areas that the states can spend money on. Each state, through its Governor's Highway Safety Representative, determines which of the programs will receive funding.

DEPARTMENT OF VETERANS AFFAIRS

Emergency Medical Preparedness

101 West Ohio St. # 1510

Indianapolis, IN 46202

Phone: (317)226-5033

FAX: 317/226-5135

Mission: Primary back-up to the Department of Defense medical care system for the care of active duty personnel during a military contingency where the DOD Medical Care Facilities are unable to provide care to all returning casualties. The Emergency Medical Preparedness Office in conjunction with the ASCMD for Operations will develop plans to support the National Response Plan and the NDMS (National Disaster Medical System).

DEPARTMENT OF HEALTH & HUMAN SERVICES

National Center for Injury Prevention and Control

Centers for Disease Control

1600 Clifton Road, N.E., MS F-36

Atlanta, GA 30333

Phone: (404)488-4656

FAX: 404/488-4422

Mission: Lead Federal agency for control of non-occupational injuries. The Division of Injury Control supports both intramural and extramural programs in prevention, acute care, and rehabilitation of injured persons. The division's intramural activities in acute care include responsibility for developing the U.S. Public Health Service's Year 2000 Objectives for Emergency Medical Services and Trauma Systems and development of national standards for trauma care data collection.

Bureau of Maternal & Child Health

Injury Prevention & EMS for Children

Department of Health & Human Services

5600 Fishers Lane

Rockville, MD 20857

Phone: (301)443-4026

FAX: 301/443-4842

Mission: Develop the Emergency Medical Services for Children (EMSC) program, designed to reduce mortality and other negative consequences of pediatric emergencies through strengthening the capacity of Emergency medical systems to deal with pediatric trauma and critical illness. EMSC has been designed to be a system encompassing injury prevention, acute care, and rehabilitation.

The EMSC program funds grants for States to improve the system of care for children. These grants focus on issues such as injury prevention, education, financing, data collection, quality assurance and rehabilitation. The Bureau of Maternal & Child Health also funds "targeted issues" grants addressing issues such as regional data surveillance, quality assurance and development of an interactive videodisc program.

Division of Emergency Medicine and Trauma Care

Bureau of Health Resources Development
Health Resources & Services Administration
Room 11-A-22
5600 Fishers Lane
Rockville, MD 20857
Phone: (301)443-7577
FAX: 301/227-6095

Mission: Responsible for implementing the Trauma Systems Act of 1990. Coordinates two grant programs which provide funds to develop trauma systems.

National Disaster Medical System

Office of Emergency Preparedness
U.S. Public Health Service
Room 4-81
5600 Fishers Lane
Rockville, MD 20857
Phone: (301)443-1167
FAX: 301/443-5146

Mission: Serves as principal advisor to the Department of Health and Human Services' Assistant Secretary for Health (ASH) in his/her responsibility for department-wide emergency preparedness matters. Develops, directs, coordinates and executes departmental emergency preparedness plans, programs and functions.

GENERAL SERVICES ADMINISTRATION

Vehicle Engineering Branch

Automotive Center (FCAE-E)

AP Building #2

Washington, D.C. 20406

Phone: (703)603-1209 FAX: 703/603-1300

Mission: Responsible for developing the Federal government's specifications for ground ambulances (Federal Specification KKK-A-1822-C) which are used by the ambulance manufacturers as the basic blueprint for their vehicles.

FEDERAL INTERAGENCY COMMITTEE ON EMS

United States Fire Administration, Chair
Federal Emergency Management Agency
16825 South Seton Avenue
Emmitsburg, MD 21727
Phone: (301)447-1185
FAX: 301/447-1395

Mission: Primary purposes:

- A. Serves as a forum to establish and facilitate effective communications and coordination between and among Federal departments and agencies involved in activities related to EMS. The committee shall:
 - 1. Foster the collection and analysis of information concerning the development of EMS programs, activities, needs, national voluntary standards, corresponding Federal standards and regulatory actions, and the promotion of compliance and certification programs relating to EMS.
 - 2. Develop among various Federal departments and agencies recommendations to be submitted to the Director of FEMA which will:
 - a. Strengthen the communication and coordination of Federal policies and programs.
 - b. Promote harmony and avoid duplication of efforts.
 - c. Promote uniformity of standards and policies consistent with existing Federal laws and regulations regarding EMS.

- B. Distribute information regarding the policies and programs of Federal departments and agencies involved in activities related to EMS.
- c. Promote uniform policies, programs and procedures within the Federal government regarding EMS which fully satisfy accepted requirements of involved Federal departments and agencies, non-Federal departments and agencies, and recognized professional associations.
- D. Facilitate the coordination of Federal department and agency participation in the development of appropriate national voluntary EMS standards and guidelines and their adoption by Federal departments and agencies to ensure:
 - 1. The most effective use is made of Federal department and agency resources and representatives so that related efforts compliment rather than duplicate each other to the fullest extent practicable, except where such duplication is clearly in the interest of the public and/or is mandated by law, regulation, or department or agency policy.
 - 2. The views expressed by Federal department and agency representatives, and voluntary standards activities, are in the interest of the public and, as a minimum, do not conflict with the policies of other involved Federal departments and agencies.
- E. Maintain a liaison with National EMS trade and professional organizations concerning EMS issues, committee policies and programs, and Federal activities related to EMS.
